## CHICAGO CRIMES DATA ANALYSIS

**Team members:** Ajinkya Pawale (ajpawale@iu.edu) , Anuhya Sankranti (ansankra@iu.edu) , Sharanbasav Sumbad (ssumbad@iu.edu) , Shivani Vogiral (svogiral@iu.edu)

**Steps to run the code and use the datasets:**

1) Unzip the csv data file named 'Chicago_Crime-2019-20121.csv.zip'

2) Use the data file and run the code file named 'Data-preprocessing.Rmd'

3) After the above Rmd file is run, a new preprocessed data file is generated which is named 'crimes_data_2019.csv'

4) The above generated data file is then loaded into the 'FinalProject.Rmd' for the further analysis on the reduced data

**Please reach out to us on above email if there is any issue with reproducing the codes**.
